DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose nor reasonably suggest, both alone or in combination, neither the network station manager of claim 7 nor method of claim 51, which includes the various states and centralized error handling state as claimed by applicant. While the DAVIC cable modem specification does disclose an error handling state, it does not disclose a centralized error handling state, nor does it disclose how it interacts with the other states.

Claims 7-17 and 51-59 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
